

Eliminator

Heavy Duty Degreaser

Limpiador y Desengrasante

DESCRIPTION

A special compound liquid chemical concentrate which combines the emulsifying and wetting powers of a detergent with the strong dissolving powers of a safe, nonflammable solvent. It is most effective for dissolving heavy deposits of oxidized waxes and polymers, thick layers of down trodden greases, baked on deposits of carbon, soot, gums, oils, inks, dyes, and hard soap scum.

DIRECTIONS

IMPORTANT: Care must be used when cleaning aluminum, magnesium and other nonferrous metals because of free caustic in this product which can be corrosive. Use only very diluted solutions and rinse quickly and thoroughly.

- Use 2 - 3 oz. of product per gallon of water for light soils on tabletops, countertops, and similar areas.
- Use 4 - 6 oz. of product per gallon of water for medium soils such as greasy kitchen surfaces.
- Use 8 - 16 oz. of product per gallon of water for difficult soils.

Apply solution to surface, scrub with brush or sponge, and rinse clean.

NOTE: Do not use undiluted on composition floors. Use with caution on painted surfaces (always pretest in a hidden area first). Not for use on glass. If contact occurs, immediately rinse thoroughly with plenty of water. Never allow product to dry on glass surface.

APPLICATIONS

FOR USE IN:

- > Food processing plants
- > Newspaper printers
- > Schools

SPECIFICATIONS

Color	Red
Fragrance	None
pH Range	12.0 - 12.5
Dilution	2 - 16 oz. / gal.
Density	8.42
